

Advance your skills and grow your business

Register now for Building Skills at The Builders': Session four

The Builders' Association, in collaboration with eight of the heartland's top general contractors, is proud to host Building Skills at The Builders'. This series of professional development sessions focuses on advancing the skills of minority, women and disadvantaged business enterprises in the construction industry through training, mentorship and networking.

Registration for the fourth session is now available at www.buildersassociation.com, but hurry because space is limited and the sessions are FREE for participants!

The fourth session will feature two of the region's largest general contractors alongside the Kansas City, Missouri Procurement Services Division. They will discuss new upcoming bidding opportunities for diverse subs and suppliers. Additionally, Ryan Johnson, The Builders' Association's Plan Services Director, will share best practices for The Builders' Electronic Plan Room when searching for new opportunities. Dinner will be provided. Information about subsequent sessions, which will take place the last Tuesday of each month in 2022, will be updated at www.buildersassociation.com.
